

## Reconditioned HP Code Master XL

**\$1,300.00**

This versatile, high-quality unit charges from 0 to 360 joules in under 5 seconds. The CodeMaster XL provides true 1-2-3 operation, built-in pediatric paddles under slide-off adult paddles, preset heart rate alarms, a high-capacity battery, built-in diagnostics, and auto gain--which automatically sizes ECGs on its large, 5-inch display.

The CodeMaster XL features include:

- ECG recorder
- Shock Advisory with Advisory Event Summary
- built-in Pulse Oximetry (SpO<sub>2</sub>)
- A paddle-to-patient contact indicator
- All cables
- Hands-free defibrillation
- Operators manual
- New batteries
- 6 month warranty
- Colors: Yellow or beige.

## Reconditioned Physio Control Life Pak 9P

\$1,400.00

Paper \$3.95

Conductive Gel: One tube included-\$3.95 per tube

The Physio-Control Lifepak 9P MONOPHASIC defibrillator with Pacing is designed to meet the needs of clinical, biomedical engineering, and purchasing professionals throughout the world. This unit's simple 1-2-3 operation with built-in noninvasive pacing and user-friendly display, plus its compact, portable, space-saving design, revolutionized in-hospital defibrillation. Innovative features include high and low energy select displays, annotating recorder that prints out time, date, leads, and gain, and CODE SUMMARY critical event record, which recaps critical events from the moment of "power on." Optionally the Lifepak 9P features a Defibrillation Adapter used with auxiliary paddles for "hands-free" defibrillation. An optional Shock Advisory Adapter converts the Lifepak 9P defibrillator/monitor/pacemaker into an semi-automatic external defibrillator. Designed for ease of maintenance with on-screen diagnostics for simple test and calibration, this unit includes an integral chassis which allows 360° serviceability.

- Multi Function patient cables for Defib with Pacing
- ECG Leads
- 2 New batteries
- 1 Set of Stat-pads
- Operators Manual
- A/C power supply cord
- Patient Paddles
- 6 month warranty

## Reconditioned Life Pak 12

Price: \$5,450.00

Reconditioned LifePak 12 includes Patient Cables, 3-lead ECG, Hands free Multi function cables for hand free defib and pacing, two Batteries, Six month warranty, AED with Manual Override, and Pacing. Hard Paddles are available for an additional \$500 per set and are not included.

### System Description:

The LIFEPAK LP12 BIPHASIC defibrillator/monitor series provides therapeutic and diagnostic functions in a single small device designed for both out-of-hospital and hospital users. Innovative platform design provides ease of use and the flexibility to add new features and enhancements at a future date.

- Fast, safe and effective defibrillation and pacing therapy is delivered through single function keys. The Selector knob allows easy input of events and patient demographics and facilitates navigation through menu options.
- In AED mode, the LIFEPAK 12 defibrillator/monitor series utilises the Physio-Control field proven Shock Advisory System to advise operator when it detects a shockable rhythm. In manual mode, the LIFEPAK 12 defibrillator/monitor series features simple 1-2-3 operation of synchronized cardioversion.
- Large LCD display allows 1, 2 or 3 ECG channels to be viewed simultaneously, with up to 8 seconds of cascading ECG.
- Marquette Medical Systems 12SL ECG analysis program offers interpretive 12-lead ECG analysis.
- Pulse oximetry with Nellcor C-LOCK ECG synchronisation for timing pulse oximetry measurements with ECG signal.
